(Art. 36 of the PPA)

<sup>1</sup> The contracting authority may specify in the tender documentation a deadline by which questions may be accepted.

<sup>1</sup> The contracting authority shall conduct a debriefing with an unsuccessful tenderer at its request.

<sup>2</sup> In the debriefing, the principal reasons, in particular, for not selecting the tender shall be given. Confidentiality in accordance with Article 51 paragraph 4 of the PPA must be ensured.

**Section 4 Competition and Study Contract Procedures**

(Art. 22 of the PPA)

Competition and study contract procedures may be used to procure all goods and services within the meaning of Article 8 paragraph 2 of the PPA.

**Art. 14** Scope of application

<sup>2</sup> Competition procedures shall be used for tasks that can be sufficiently and conclusively defined in advance.

<sup>3</sup> Study contract procedures are suitable for tasks which, due to their complexity, can only be specified and completed during the course of the procedure.

**Art. 15**           Types of procedure

<sup>1</sup> Competitions and study contracts shall be put out to tender in an open or selective procedure, provided the value of the contract reaches the relevant threshold laid down in Annex 4 of the PPA.

<sup>2</sup> If these thresholds are not reached, the competition or study contract may be awarded in an invitation procedure.

<sup>3</sup> The number of participants may be reduced in the course of the procedure, provided this eventuality was indicated in the invitation to tender.

**Art. 16**           Independent panel of experts

<sup>1</sup> The independent panel of experts shall be composed of:

<sup>4</sup> The panel may call in experts at any time to give their opinion on specialist issues.

<sup>5</sup> In particular, it shall make a recommendation to the contracting authority for the award of a subsequent contract or for the next steps to be taken. In the competition procedure, it shall also decide on the ranking of the formally correct competition entries and on the awarding of prizes.

<sup>6</sup> It may also rank, or recommend for further processing, entries that deviate in key areas from the requirements of the invitation to tender (purchase), provided:

- a. this possibility has been expressly set out in the invitation to tender; and
- b. it decides so in the quorum set out in the invitation to tender.

**Art. 17**           Special provisions on the competition procedure

<sup>1</sup> In the competition procedure, competition entries must be submitted anonymously. Participants who violate the anonymity requirement will be excluded from the competition.

- a. a subsequent contract has been announced; and
- b. one of the following conditions is met:
  1. The contracting authority awards the contract to a third party, even though the independent panel of experts recommended that it be awarded to the creator of the entry.
  2. The contracting authority continues to use the entry with the contractor's consent, without awarding the contractor a subsequent contract.

## Section 5 Languages

### Art. 20 Language of publications

(Art. 48 paras. 4 and 5 of the PPA)

<sup>1</sup> In derogation from Article 48 paragraph 5 letters a and b of the PPA, a publication may exceptionally be produced in one official language of the Confederation and in another language, if it:

- a. relates to goods or services that are to be provided abroad; or
- b. involves highly specialised technical goods or services.

<sup>2</sup> If none of the languages specified in paragraph 1 corresponds to an official language of the World Trade Organisation (WTO), the contracting authority shall in addition publish a summary of the invitation to tender in an official language of the WTO in accordance with Article 48 paragraph 4 of the PPA.

### Art. 21 Language of the tender documentation

(Art. 47 para. 3 and Art. 48 para. 5 of the PPA)

<sup>1</sup> For supplies and services, the tender documentation shall, as a general rule, be written in the two official languages of the Confederation in which the invitation to tender was published.

<sup>2</sup> The contracting authority may publish the tender documentation in only one official language of the Confederation if, on the basis of reactions to an advance notice or other indications, it is to be expected that there is no need to publish the tender documentation in two official languages.

<sup>3</sup> In addition, the tender documentation may be written in only one official language of the Confederation or, in cases specified in Article 20, in another language if:

- a. a translation would result in considerable additional costs; considerable additional costs are deemed to exist when the cost of translation would exceed 5% of the contract value or CHF 50,000; or
- b. the goods or services are not to be provided in different language regions of Switzerland and do not have an impact on different language regions of Switzerland.

<sup>4</sup> For construction work and associated supplies and services, the tender documentation must be written in at least the official language at the site of the construction work in Switzerland.

### Art. 22 Language of submissions

<sup>1</sup> The contracting authority shall accept tenders, requests to participate, applications for inclusion on a list and questions in German, French and Italian.

<sup>2</sup> For the cases specified in Article 20, the contracting authority may specify the language or languages of the submissions.

**Art. 23** Language of the procedure

(Art. 35 let. m of the PPA)

<sup>1</sup> The contracting authority shall designate German, French or Italian as the language of the procedure. For the cases specified in Article 20, it may choose another language; in these cases, its decisions must still be communicated in an official language of the Confederation.

<sup>2</sup> In selecting the language of the procedure, it shall consider as far as possible the language region from which the most tenders can be expected for the goods or services to be provided. For construction work and associated supplies and services, it shall be assumed that most tenders will be received in the official language at the site of the construction.

<sup>3</sup> Unless otherwise agreed, the contracting authority shall communicate with the tenderers in the language of the procedure. It shall answer questions on the tender documentation in the language of the procedure or in the official language of the Confederation in which they were submitted.

## **Section 6 Further Provisions**

**Art. 24** Price checking

<sup>1</sup> In the absence of competition, the contracting authority may agree with the tenderer on a right to inspect the calculation if the value of the contract is worth CHF 1 million or more.

<sup>2</sup> The price may be checked by the competent internal audit unit or by the Swiss Federal Audit Office (SFAO) at the premises of the tenderer and subcontractors. In the case of foreign tenderers or foreign subcontractors, the competent internal audit unit or the SFAO may request the competent foreign office to carry out the check if adequate protection in accordance with the Federal Act of 19 June 1992<sup>5</sup> on Data Protection is guaranteed.

<sup>3</sup> Tenderers and their subcontractors who provide essential goods or services are obliged to provide the competent auditing entity with all necessary documentation and information free of charge.

<sup>4</sup> The basis for a price check is, in particular, the financial and cost accounting of the tenderer or subcontractor, as well as the preliminary or post calculation of the contract price based on this. The calculation shows the total production costs according to the industry's standard cost breakdown, as well as the risk premia and profit.

<sup>5</sup> SR 235.1

<sup>5</sup> If the check reveals that the price is too high, the contracting authority shall order the difference to be refunded or a price reduction applied in the future, unless the contract provides otherwise. An increase in price as a result of the check is excluded.

**Art. 25** Exclusion and sanctions

(Art. 44 and 45 of the PPA)

<sup>1</sup> The FPC shall maintain the list of tenderers and subcontractors excluded from future contracts in accordance with Article 45 paragraph 3 of the PPA.

<sup>2</sup> Each notified exclusion (ban) is recorded on the list with the following information:

- a. date of notification;
- b. notifying contracting authority;
- c. name (company) and address of the tenderer or subcontractor;
- d. reason for the ban;
- e. length of the ban.

<sup>3</sup> This information shall be provided on request by:

- a. a contracting authority or its subordinate awarding office;
- b. the tenderer or subcontractor concerned.

<sup>4</sup> Tenderers and subcontractors who appear on the list described in paragraph 1, or on a sanctions list of a multilateral financial institution, may be excluded from an award procedure in accordance with Article 44 of the PPA, or the contract awarded to them may be revoked.

<sup>5</sup> The FPC shall disclose the information on the list to the Inter cantonal Public Procurement Body (InöB), provided the principle of purpose is respected.

<sup>6</sup> The FDF shall regulate the technical and organisational requirements for accessing the list and the procedure for correcting incorrect entries in an ordinance.

- a. name and address of the tenderer selected;

- b. subject of the contract;
- c. contract value;
- d. type of procedure used;
- e. date of start of the contract or period of performance of the contract.

**Art. 28** Statistics on procurements in the scope of international treaties  
(Art. 50 of the PPA)

<sup>2</sup> It shall prepare and communicate the statistics in accordance with Article XVI paragraph 4 of the Protocol of 30 March 2012<sup>6</sup> amending the Agreement on Government Procurement.

**Art. 29** Costs and remuneration of the Public Procurement Commission for the Confederation and the Cantons (KBBK)  
(Art. 59 of the PPA)

<sup>2</sup> It shall bear the costs of the external experts of the KBBK, provided the cantons contribute an appropriate proportion of the costs.

<sup>3</sup> The departments shall bear the investigation costs incurred by the contracting authorities that are organisationally assigned to them.

<sup>4</sup> The federal representatives in the KBBK have no right to remuneration.
